Profile

Experienced BI Developer with 4+ years of expertise in Power BI, SSRS, and SQL, specializing in transforming complex data into actionable insights. Proven track record of designing 40+ interactive dashboards and reports, automating processes to reduce manual effort by 40%, and optimizing data models for performance. Skilled in DAX, Power Query, ETL processes, and Row-Level Security (RLS), with hands-on experience in SQL Server, Oracle, and Power BI Service. Strong ability to collaborate with stakeholders, translate business needs into scalable solutions, and drive data-driven decision-making. Passionate about performance tuning, self-service analytics, and delivering high-impact BI solutions that enhance operational efficiency. Certified in Microsoft PL-300: Power BI Data Analyst Associate.

Skills

- **BI Tools:** Power BI, SSRS, Tableau, Crystal Reports
- **Data Integration:** Power Query, Power Automate, SSIS
- **Database & Querying:** MS SQL Server, Oracle, T-SQL, Views, Stored Procedures, Indexing
- **Data Analysis & Modelling:** DAX, M Query, Star Schema, Forecasting, Trend Analysis
- **Cloud & Collaboration:** Power BI Service, Azure Data Factory, Microsoft Teams, SharePoint
- **Others:** Power BI Gateway, Excel PivotTables, Git, Azure DevOps

Work experience

Lead Engineer

HCL Technologies

07/2021-08/2023

- Led migration of reports from SAP Crystal Reports and Tableau to Power BI, ensuring data consistency, performance, and improved user experience.
- Designed and deployed interactive Power BI dashboards with Row-Level Security (RLS), drill-downs, and scheduled refreshes using Power BI Service.
- Automated data workflows and alerts using Power Automate, integrated with Microsoft Teams and SharePoint.
- Built optimized data models using DAX, M Query, and Power Query, applying star schema and data warehouse best practices.
- Created and optimized SQL queries, views, and stored procedures to support reporting needs and enhance query performance.
- Documented and transformed Tableau data sources for seamless integration with Power BI, maintaining consistent data structures.
- Applied data masking techniques to protect sensitive information across reports and dashboards.
- Developed and integrated SSRS and Excel PivotTable reports into Power BI for dynamic and self-service reporting.

Associate Consultant

Stay Top IT Solutions

07/2019-07/2021

- Worked on data modeling, created relationships, optimized schemas, and transformed data using Power BI, DAX, and Power Query (pivot/unpivot) to build accurate and clean reporting models.
- Created SQL views with data masking to ensure security and compliance, and implemented Power Automate workflows to automate approvals and synchronize data across systems.
- Maintained dashboards using Power BI Gateway, developed parameterized reports in SSRS, and provided concise project summaries and status updates to stakeholders.
- Built T-SQL queries, views, and stored procedures, enforced business rules with constraints and triggers, and wrote complex DAX measures and calculated columns for advanced visual analytics.
- Collaborated with users, conducted interviews to gather requirements, understand business challenges, and presented bi-weekly dashboards for feedback.
- Tuned SQL performance through optimization and indexing, and recommended process improvements to senior management for better system performance.
- Delivered Excel dashboards with PivotTables integrated into Power BI for seamless interaction, and supported data migration, backup processes, and ETL metadata documentation.
- Served as a COE team member, resolving Power BI issues and supporting architectural documentation.

Education

Commerce | Bachelor of Degree
Sri Krishnadevaraya University

July 2014- Aug 2017

Intermediate Education
Sri Vani Junior College

July 2012- May 2014

Certifications

- Microsoft Certified: Power BI Data Analyst Associate (PL-300), 2023
- Machine Learning certification from simplilearn 2023

Awards

- Received Star of the month – Stay top IT Solutions (Apr 2021)
